DR Medical Suspension Sleeve

Item # KB-139

Suggested HCPCS Code: L2397

Product Details:

Provides added compression and can also be used to prevent a hinged knee brace from sliding and moving around. The suspension sleeve can be worn under the knee brace to help with compression and provide additional comfort or it can be wrapped around the hinged knee brace to prevent the brace from moving. Can be worn on either the left or right knee

Sizing:

One size fits most – 12"-23" for proper measurements measure around the center of the knee with the leg extended.
